

25th ueg week

21st ESGENA Conference **28-30 October 2017**

Hosted by the Spanish Society of Endoscopy Nurses and Associates (AEEED) and the Spanish Society of Digestive Disease Nurses (AEEPD)

In Conjunction with the
25th United European Gastroenterology Week

In Barcelona, Spain

Further Information:

www.ueg.eu/week/esgena/

Important Deadlines

Submitting Abstracts	May 31, 2017
Early registration	May 18, 2017
Late Registration	September 14, 2017

Word of Welcome

Dear colleague,

On behalf of ESGENA, the Spanish Society of Endoscopy Nurses and Associates (AEEED) and the Spanish Society of Digestive Disease Nurses (AEEPD) it is our great pleasure to invite you to the 21st ESGENA Conference which will be held during the 25th United European Gastroenterology Week, October 28 - 30, 2017, in Barcelona, Spain.

Following past meetings in 2010 and 2015, this is the third time that the medical and nursing community of Gastroenterology and Endoscopy will meet in Barcelona.

After celebrating its 20th anniversary in 2016, ESGENA will continue its established structures while also initiating new formats of interactive learning. Recent successes have already connected countries and have laid the foundation for new future projects.

The three day ESGENA conference is not only an opportunity to meet colleagues from throughout Europe, but also from North and South America, Africa, Asia and Australia. The exchange with nurses from all over the world combined with the opportunity to attend the medical programme of the UEG Week ensures that the ESGENA conference will be an exceptional educational event.

In 2017 the UEG will celebrate its 25th Anniversary in Barcelona, offering interesting and interactive learning formats which emphasise the multidisciplinary approach.

Enjoy the warm Spanish hospitality of Barcelona, combined with the multicultural atmosphere of an international meeting.

We hope to welcome you to the 21st ESGENA Conference and 25th UEG Week in October 2017 in Barcelona.

Jadranka Brljak, President of ESGENA
Enriqueta Hernández-Soto, President of AEEED
Guillermo José García Sola, President of AEEPD

Registration fees for the ESGENA conference

Registration	by May 18, 2017	by September 14, 2017	after September 14 2017
ESGENA Conference	€ 185	€ 200	€ 250

- It is essential that nurses bring a copy of their professional standing or similar identification to the conference registration desk in order to prove their status (confirmation by employer, proof of education or registration as a nurse).
- If you would like to register up to 10 delegates, please register each person individually.

Registration includes

- Admission to all ESGENA scientific sessions and workshops (Saturday - Monday)
- Admission to the UEG Week scientific sessions (Saturday - Monday)
- Admission to the UEG Week poster and technical exhibition (Monday)
- Admission to the ESGE Learning Area (Saturday - Monday)
- Admission to the Ultrasound Learning Centre (Saturday - Monday)
- Unlimited use of Barcelona public transportation system (ticket is valid from Saturday through Monday).
- Congress materials (final programme, ESGENA abstract book, etc.)
- Coffee breaks and lunches (Saturday - Monday)

Programme Overview

SATURDAY, October 28, 2017

Scientific Programme Saturday, October 28, 2017

Workshop 1: Stop the bleeding: What is the best device in which situation?

This workshop is organised by **OLYMPUS EUROPA SE & CO. KG**

14:00-15:30 Room B2

Speaker: J. Niehaus, Germany

Aims & Content

This workshop is all about hemostasis. You will learn about different endoscopic cases and their specific procedures. In addition, there will be tips and tricks useful for the nurse's daily work. During this workshop, we will offer the opportunity to improve your skills of choosing and handling the right device to stop the bleeding. It includes a hands-on training within the broad range of the hemostasis-area under supervision and support of highly experienced tutors.

After the theoretical part, an intensive hands-on will follow, where you may gain further knowledge and handling-skills about the following techniques in hemostasis:

- **Diathermy**
- **Injection**
- **Looping**
- **Clipping**

Workshop 2: Endoscope reprocessing: Trends, current standards, process innovations

This workshop is organised by **Chemische Werke Dr. Weigert** and **BHT**

14:00-15:30 Room B3

Workshop language: English

Chair: Thomas Brümmer, Stefan Stülpnagel, Germany

Aims & Content

Process chemistry: overview - trends – active substances - Cleaning & disinfection processes

The individual steps for a safe reprocessing of endoscopes are defined by national and international recommendations.

Different active substances and processes have been established for manual and automated reprocessing of endoscopes

This part of the workshop will answer the following questions:

- What are the different active substances for manual and WD (washer disinfectant) reprocessing?
- How good is the cleaning performance of different active substances and how is it tested?
- What impact do different process chemicals have on treatment processes?

Presentations:

Different active substances in the cleaning and disinfection of flexible endoscopes, Markus Kamer, Germany

**Process improvements in endoscope reprocessing:
simpler - safer - faster – more cost-effective**

Automated reprocessing with WD (washer disinfectors) has become standard practice. This part of the workshop works out what has to be taken into account to make reprocessing procedures more hygienic – simpler, faster and cheaper.

There are numerous innovations and process optimisations available:

- **Simpler:** There are numerous approaches, which facilitate the process, e.g. documentation.
- **Safer:** technical solutions for enhanced safety in automated endoscope reprocessing.
- **Faster:** often endoscopists must wait for endoscopes. Find out how you can speed up the process incl. drying.
- **Low cost:** The cost of reprocessing is high - especially concerning consumption of chemicals, consequential costs, damaged endoscopes and endoscope purchases. The workshop looks at possibilities to save costs

Presentations:

Process improvements in endoscope reprocessing: Simpler - safer - faster – more cost-effective

Stefan Stülpnagel, Germany

Workshop 3: ERCP: Procedure tips with Rx and post-procedure Infection Control

This workshop is organised by **Boston Scientific**

14:00-15:30 Room E4

Workshop language: English

Speaker:

Aims & Content To be included

Workshop 4 : Actualización en hemostasia, técnicas mecánicas / Update on hemostasis, mechanical techniques

Taller organizado por la AEEED (*This workshop is organised by AEEED*)

14:00-15:30 Room B5

Workshop language: Spanish

Chair: Alicia Sánchez Rubio, Laura Moreno Salas, Spain

Objetivo y Contenido / Aims & Content

La hemostasia endoscópica, es segura y eficaz, reduce la tasa de recidiva, la necesidad de la cirugía y la mortalidad en la HDA. En la HDB, la iatrogenia (principalmente la polipectomía) es una de las causas más frecuentes. Las técnicas mecánicas, sumadas a otro método de hemostasia endoscópica, contribuyen a potenciar la eficacia y seguridad del tratamiento de la hemorragia digestiva.

Endoscopic hemostasis, is safe and effective, reduces the recurrence rate, the need for surgery and mortality in upper GI Bleeding. In low digestive bleeding, iatrogenic (mainly Polypectomy) is one of the most frequent causes. Mechanical techniques, coupled with another method of endoscopic hemostasis, contribute to enhance the efficacy and safety of the treatment of digestive bleeding.

El Objetivo del taller es / the aim of the workshop is:

- Actualizar las técnicas hemostásicas / Update the hemostasis techniques

- Describir cómo aplicar las técnicas mecánicas de hemostasia y conocer diferentes dispositivos de hemostasia mecánica / Describe how to apply the mechanical techniques of hemostasis and to know different devices of mechanical hemostasis.
-

Workshop 5: Hands-on training on bio simulators

This workshop is organised by **ESGENA**

14:00-15:30 ESGE Learning Area

Workshop language: English

Chair: Eric Pflimlin, Switzerland

Aims & Content

Hands-on training on bio simulators (pig models) under the supervision of highly experienced tutors: Participants will have the opportunity to perform endoscopic techniques on the following topics:

- OGD with Injection techniques, Ligation, Clipping, APC
- Colonoscopy with Polypectomy, EMR and APC
- ERCP with stone extraction and stenting

As participation will be limited, registration will be treated on a first-come-first-served basis: Tickets will be available onsite only – at the entrance of the ESGE Learning Area.

Workshop 6: Future endoscope reprocessing - A closer view into room concepts

This workshop is organised by **OLYMPUS EUROPA SE & CO. KG**

16:00-17:30 Room B2

Workshop language: English

Chairs:

Aims & Content

During the last 15 years, reprocessing of flexible endoscopes has become an important and accepted discipline within the area of medical GI endoscopy. During that time, the workflow of endoscopes between patient examinations has become more and more standardised, automated endoscope reprocessing machines (WD) are state-of-the-art in almost every endoscopy unit. International and national guidelines have been updated or newly released, focusing on patient and user safety. In this context, guidelines often recommend to clearly separate contaminated from clean steps in the reprocessing workflow, optimally by creating separate zones or even rooms for reprocessing.

This workshop will:

- Inform about relevant guidelines dealing with reprocessing room and workflow design
 - Provide an overview of aspects to be considered for set-up of endoscope reprocessing rooms
 - Give examples of latest endoscope reprocessing room designs
 - Allow to practically experience how to set-up suitable reprocessing rooms based on real examples
-

Workshop 7: Electrosurgery – Prevention of complication

This workshop is organised by **ERBE Elektromedizin GmbH**

16:00-17:30 Room B3

Workshop language: English

Chairs: Thomas Beck, Germany
Björn Fehrke, Switzerland

Aims & Content

Electrosurgery offers the possibility of pressure-free and precise cutting and at the same time control of bleeding during endoscopic resection techniques. With argon plasma coagulation tissue can be devitalized. The water-jet surgery provides additional options for resection:

The aim of the workshop is:

- To update on principles of electrosurgery and relevant safety measures
- To demonstrate different settings for different applications like Polypectomy, EMR, ESD, Papilloectomy, etc:

in order to achieve max safety and to prevent adverse events and complications

Workshop 8: The ‘Complete Circle of Protection’

This workshop is organised by **CANTEL**

16:00-17:30 Room E4

Workshop language: English

Chair: Cheri Ackert-Burr, The Netherlands

Aims & Content

Delivering the Complete Circle of Protection, a full-value, proactive partnership dedicated to helping you remove risk, streamline operational efficiencies and optimize your success.

This part of the workshop focuses on the 4 stages of an endoscopes journey and looks at how you can maximize efficiency and improve patient safety at each stage.

- Procedure: defendo, amplifeye and Endo Stratus – improving patient safety and outcomes
 - Manual clean: Scope Buddy – reducing the manual process and improving the process
 - Reprocessing: Pass-Through machines – improving process flow with CLEAN and DIRTY sides
 - Dry & store: Cleanascope carts & Endodry – protecting the scope and ensuring clear identification of clean & dirty
-

Workshop 9: Actualización en reprocesamiento de Duodenoscopios y control de calidad / Duodenoscope reprocessing and quality control update

Taller organizado por la AEEED (*This workshop is organised by AEEED*)

14:00-15:30 Room B5

Workshop language: Spanish

Chair: Montserrat Medina Vivas, Silvia Carnicer Nieto, Spain

Objetivo y Contenido / Aims & Content

La complicada estructura de los duodenoscopios dificulta su limpieza y desinfección. El reprocesamiento de los duodenoscopios se ha intensificado desde que se han descrito algunos brotes de infección verdaderamente preocupantes a pacientes sometidos a CPRE. Para garantizar un correcto reprocesamiento de los duodenoscopios es necesario aplicar un control de calidad.

The complicated structure of the duodenoscopes makes cleaning and disinfection difficult. Duodenoscopes reprocess intensively since some outbreaks of infection of concern to patients undergoing ERCP have been described. To ensure a correct reprocessing of the duodenoscopes it is necessary to apply a quality control.

El Objetivo del taller es / the aim of the workshop is:

- Actualizar el reprocesamiento del duodenoscopio / Update the duodenoscope reprocessing
- Describir cómo aplicar el control de calidad / Describe how to apply the quality control

Workshop 10: Hands-on training on bio simulators

This workshop is organised by **ESGENA**

16:00-17:30 ESGE Learning Area

Workshop language: English

Chair: Eric Pflimlin, Switzerland

Aims & Content

Hands-on training on bio simulators (pig models) under the supervision of highly experienced tutors: Participants will have the opportunity to perform endoscopic techniques on the following topics:

- OGD with Injection techniques, Ligation, Clipping, APC
- Colonoscopy with Polypectomy, EMR and APC
- ERCP with stone extraction and stenting

As participation will be limited, registration will be treated on a first-come-first-served basis: Tickets will be available onsite only – at the entrance of the ESGE Learning Area.

Scientific Programme Sunday, October 29, 2017

SESSION 1: Free Paper I

09:00-10:30	Room B2	
Chairs	Anita Jorgensen, Norway Montse Victor, Spain Wendy Waagenes, Denmark Gerlinde Weilguny, Austria	
09:00-09:15	Welcome Jayne Tillet, United Kingdom	
09:15-09:30	Nursing need theory potentially applied in gastrointestinal endoscopy setting Giulia Marika Futura Beorchia, <u>Roberta Mattioli</u> , Italy	L-1
09:30-09:45	A "Debriefing" method to improve gastroenterology nursing practices <u>Ruhama Podoler</u> , Ian M. Gralnek, Israel	L-2
09:45-10:00	The quality of life of patients with inflammatory bowel diseases treated by biological therapy Marija Zubčić, Croatia	L-3
10:00-10:15	Straight to scope - should iron deficiency anaemia referrals go automatically to scope? Dominique McGinlay, Naismith G, United Kingdom	L-4
10:15-10:30	Review of the number of endoscope repairs and loans required after implementation of a new tip protection device <u>Esther McBurney</u> , United Kingdom	L-5

SESSION 2: Liver Transplantation

09:00-10:30	Room B3	
Chairs	Jadranka Brljak, Croatia; Guillermo José García Sola, Spain	
09:00-09:10	Welcome Jadranka Brljak, Croatia	
09:10-09:30	How to make liver transplantation a success? Jasna Brezak, Croatia	L-6
09:30-09:50	Acute care of patient after liver transplantation Anna Aliberch, Spain	L-7
09:50-10:10	Psychological aspects in the care of liver transplant patients Vlatka Rafaj, Croatia	L-8
10:10-10:30	Complications after liver transplantation – the endoscopic approach Jacques Deviere, Belgium	L-9

Poster Round I

10:30-11:00	ESGENA Poster area
Chairs	Joan Skovlund Christensen, Denmark Fanny Durand, France Minerva Galvez-Martin, Spain Jayne Tillett, United Kingdom
Sedation	
P-1	The role of nurse conducted informed consent in digestive endoscopy. A case-control study <u>Adriana-Sidela Leca</u> , Valeria-Danuta Mihnea, Institute of Gastroenterology and Hepatology, Iasi, Romania
P-2	Assessing the postal consent for upper gastroduodenal endoscopy Ama Badu, Natalia Cambon Bonet, Sarah Gibbings and <u>Roxana Lupu</u> , United Kingdom
P-3	Conventional sedation with midazolam and sufentanil is safe and feasible for endoscopic treatment of walled-off pancreatic necrosis <u>Sisse Rysgaard</u> , Camilla Ramvold, Palle Nordblad Schmidt, Lise Lotte Gluud, Srdan Novovic, Denmark
P-4	Gastroenterology nurse administered dexmedetomidine for ESD. Chaya Baruchi, Galina Garberg, <u>Dganit Daniel Avdar</u> , Israel

SESSION 3: Free Paper II

11:00-12:30	Room B2	
Chairs	Anita Jorgensen, Norway Montse Victor, Spain Wendy Waagenes, Denmark Gerlinde Weilguny, Austria	
11:00-11:15	Awake! The effects of unsedated colonoscopy on adenoma detection rate <u>Jane Magtoto</u> , Jay Lardizabal , William Karnes USA	L-10
11:15-11:30	Gastrostomy tube tract length: Does it change with the child's growth? <u>Rachel Leshem-Nameidar</u> , Yael Adler Batia Weiss, Israel	L-11
11:30-11:45	High incidence of minor adverse events after endoscopic mucosal resection or submucosal dissection for colorectal tumors <u>Ye Lim Song</u> , Kyung-Jo Kim , Jeong-Sik Byeon, Ji Hye Kim , Yeo Ok Kim, Dong-Hoon Yang, Sang Hyoung Park, Sung Wook Hwang, Eun Mi Song, South Korea	L-12
11:45-12:00	Endoluminal vacuum therapy in anastomotic leakages at rectal level. <u>Pedro Luis Del Mazo Tomé</u> , Alejandro Toledo Soriano, Cristina Viñuela Lobo, María Del Mar Gutiérrez García, Aida Longoria Argüelles, Spain	L-13
12:00-12:15	The role of endoscopy nurse in removal foreign bodies from the upper gastrointestinal tract in children Mirela Kubicz, Livia Dumitra, Valentina Vulpe, Cornelia Tudor	L-14

12:15-12:30	Digital, direct panreatoscopy in chronic pancreatitis can change patient management – A case report <u>Petra Holzky-Haselbach</u> , Sandra Krüger, Alexander Arlt, H. Aselmann , T. Becker , Mark Ellrichmann, Germany	L-15
-------------	---	------

SESSION 4: Education – Different approaches in Europe

11:00-12:30	Room B3	
Chairs	Helen Griffiths, United Kingdom Marjon de Pater, The Netherlands	
11:00-11:15	What kind of staff is needed in Endoscopy Ulrike Beilenhoff, Germany	L-16
11:15-11:35	What kind of specialist education and training is needed in Endoscopy? Experience from Estonia Siiri Maasen , Estonia	L-17
11:35-11:55	Endoscopy diploma at university – the French experience Fanny Durand and Mikael Mochet, France	L-18
11:55-12:15	E-Learning, Apps and YouTube innovate communication and training – what makes sense? What infrastructure is needed? José Manuel Martínez Gonzalez, Spain	L-19
12:15-12:30	Building a Comprehensive Approach to Medical Device Hygiene and Infection Control (Pentax) Hudson Garrett Jr., USA	L-20

Workshop 11: Hands-on training on bio simulators

This workshop is organised by **ESGENA**

11:00-12:30 **ESGE Learning Area**

Chairs: Eric Pflimlin, Switzerland

Hands-on training on bio simulators (pig models) under the supervision of highly experienced tutors. Participants will have the opportunity to perform endoscopic techniques on the following topics:

- Upper GI Bleeding
- ERCP

As participation will be limited, registration will be treated on a first-come-first-served basis. Ticket will be available onsite only – at the entrance of the ESGE Learning Area.

Poster Round II

13:30-15:00	ESGENA Poster area
Chairs	Fanny Durand, France Minerva Galvez-Martin, Spain Jayne Tillet, United Kingdom Joan Skovlund Christensen, Denmark
Upper GIT	
P-5	Foreign bodies in the upper gastrointestinal tract Mladenka Buić Gržeta, <u>Boris Kopic</u> , Katarina Matošević, Kristina Bego, Merima Salešević, Croatia
P-6	The comparison of pre-procedural anxiety for Esophagogastroduodenoscopy Sunghee Cho, South Korea
P-7	The role of the endoscopic nurse in the management of patient with acute pancreatitis undergoing to endoscopic necrosectomy Giulia Provenzano, Italy
P-8	Workload related to histological analysis in gastroscopy <u>Cinzia Rivara</u> , Daniela Carretto Teresa Iannone, Italy
Lower GIT	
P-9	Comparison of sugared Polyethylene Glycol solution versus Polyethylene Glycol solution for colonoscopy Ok Yeon Cho, Mi Yeong Kim, Ki Young Sung, Sun Hee Nam, Jun Won Chung, South Korea
P-10	Divided dose different day and same day drug use comparison in colon cleaning <u>Tacettin Güngör</u> , Mahmut Atas, F. Şentürk, S.Özarabaci, M.Türkbeyler, D.Sevindik, Mahmut.Caneken Agil Ağakışiyev, M. C. Savaş, Turkey
P-11	Pressure on abdomen and position change during colonoscopy: A routine procedure? <u>Tacettin Güngör</u> , Mahmut Caneken, Mahmut Atas, M. Sait Dağ, Nimet Yılmaz, Hakan Çam, Agil Agakışiyev, Turkey
P-12	Improvement Activities for Reducing Colonic Perforation in Colonoscopy Nalae Jo, South Korea
P-13	Screening for colorectal cancer: nursing intervention in intestinal preparation prior to colonoscopy. <u>María Elena de la Torre</u> , Nuria Rivas, María del Mar Pascual, María Jesús García, Spain
P-14	Challenges of nursing and treatment management in a case of active ulcerative colitis with an uncommon extraintestinal manifestation Carmen Dirzu, Nicoleta Melinte, Carol Stanciu, <u>Cristina Muzica</u> , Oana Stoica, Stefan Chiriac, Anca Trifan, Romania
P-15	The influence of biological therapy on the quality of life of patients with inflammatory bowel disease Željka Pušeljić, Lidija Tomas, <u>Maja Čebihin</u> , Croatia
P-16	The role of the nurse in the endoscopic treatment with hemorrhoidal rubber bands ligation Martín Arias MC, García Zafra B, <u>Pérez Oltra A</u> , Ráez Frías RM, Vilar García M. Spain

Liver	
P-17	Investigation of the information levels of patients about complications of chronic HBV – HCV diseases <u>Tacettin Güngör</u> , Nurevşan Kuşdoğan, Esra Ekiciler, Bahadır Edizer, A .Emre Yildirim, M.Taner Gülşen, Turkey
P-18	Challenges of nutritional intervention in patients with liver cirrhosis in a tertiary care center from north-eastern Romania: the perspective of the nurse Ana Maria Rotaru, Valeria Dănuța, Carol Stanciu, Cristina Muzica, Irina Girleanu, <u>Stefan Chiriac</u> , Anca Trifan, Romania
P-19	Hepatitis B Virus (HBV) Transmission from 202 Confirmed Viraemic Patients to Gastrointestinal Endoscopes and Current Infection Prevention Procedure Evaluation <u>Yatao Liu</u> , Lihua Zhou, Qiong Deng, Yunchao Yang, Xiaodan Shao, China
Hygiene	
P-20	Digital manual for adequate disinfection of flexible endoscopes <u>Anna-Karin Olsson</u> , Violetta Engelbrektsson, Sweden
P-21	The situation and quality control in the endoscopes reprocessing in China Xi Huijun, China
P-22	Development and application of an instrument for cleaning endoscopes and the effect of an enzymatic cleaner on removal of biofilm from endoscopes and the level of job satisfaction InJa Yoon, South Korea
Education & Management	
P-23	A new era for GI endoscopy nursing in Malaysia Rosalin Maria P.Sulit, Malaysia
P-24	Do you prescribe professional health apps? <u>Antonio Torrejón</u> , Octavi Rodríguez, Miguel A. Mayer, Spain
P-25	Design and implementation of a scientific update app for healthcare professionals <u>Lorena Villa</u> , Octavi Rodríguez, Antonio Torrejón, Spain
P-26	Transforming skills in practice. The experience of the European Endoscopy Training Center. <u>Fabio Grilli</u> , Anna Di Gemma, Cinzia Rivara, Davide Cordioli, Guido Costamagna, Italy
P-27	Development of Web-based Job Training Program for Nurses in Gastrointestinal Endoscopy Unit Kwon EunJu, <u>Jung EunJu</u> , Lee HangMi, Kim BoKoung, KIm YoungHui, Lee YoHan, Jung Kwuylm, South Korea
P-28	The experience of a nurse-operated referral center for Video-capsule Endoscopy <u>Osnat Kalnizki</u> , Inna Brin, Jorge Liechtmann, Israel

Lunch Session 1: Endoscopic techniques

This lunch session is organised by **ESGENA**

12:30-15:00	Room B2
Chairs	Sylvia Lahey, The Netherlands Daniela Burtea, Romania
13.10-13.20	Boston Scientific
12.30-12.40	Karl Storz
12.40-12.50	Microtech
12.50-13.00	Olympus
13.00-13.10	Ovesco
13:30-15:00	Hands-on training with the companies

Lunch Session 2: Hygiene

This lunch session is organised by **ESGENA**

12:30-15:00	Room B3
Chairs	Björn Fehrke, Switzerland Maja Iljevska, Macedonia
13.10-13.20	Boston
12.30-12.40	Evolution of a total green automated system for effective and safe endoscope reprocessing (CBC (Europe Monica Cimbro, Italy
12.40-12.50	Pullthru
12.50-13.00	Soluscope
13.00-13.10	Steelco
13:30-15:00	Hands-on training with the companies

Workshop 12: Hands-on training on bio simulators

14:00-15:30 ESCE Learning Area

Chairs: Eric Pflimlin, Switzerland

Hands-on training on bio simulators (pig models) under the supervision of highly experienced tutors. Participants will have the opportunity to perform endoscopic techniques on the following topics:

- Colonoscopy
- ERCP

As participation will be limited, registration will be treated on a first-come-first-served basis.

Ticket will be available onsite only – at the entrance of the ESGE Learning Area.

SESSION 5: Management – which structure is needed?

15:00-16:30	Room B2	
Chairs	Enriqueta Hernandez-Soto, Spain Yuri Guriel, Israel	
15:00-15:20	Optimising the workflow in Endoscopy Marjon de Pater, NL	L-20
15:20-15:40	Implementation of checklists in daily routine – benefits & difficulties Peter Sirsema, NL	L-21
15:40-16:00	How to assess and measure competence of the nurse assisting with endoscopic procedures? Laura Dwyer, United Kingdom	L-22
16:00-16:15	How to calculate staff in Endoscopy – different approaches Ulrike Beilenhoff, Germany	L-23
16:15-16:30	Major Sponsor Presentation (COOK)	

SESSION 6: Endoscopic Techniques

15:00-16:30	Room B3	
Chairs	Siiri Maasen, Estonia Lidia Gorchs , Spain	
15:00-15:15	Major Sponsor presentation (Olympus)	
15:15-15:33	Endoscopic faecal transplantation – different ways of application Salvador Machlab, Spain	L-24
15:33-15:51	EMR; ESD – which technique for which polyp and which location? Michal Kaminski, Poland	L-25
15:51-16:09	Endoscopic treatments for obesity – benefits and limitations Alba Lira, Spain	L-26
16:09-16:27	New techniques for treatment of pancreatic cysts Nadan Rustemovic, Croatia	L-27

SESSION 7: Colorectal Cancer Screening

17:00-18:30	Room B2	
Chairs	Ingrid Karström, Sweden Päivi Muranen, Finland	
17:00-17:20	Screening programmes differ in Europe – why and how? Anita Jorgensen, Norway	L-28
17:20-17:40	Surveillance Colonoscopy – are we scoping the right people at the right time? Irene Dunkley, United Kingdom	L-29
17:40-18:00	Who is qualified to perform screening colonoscopies? Experience from Scandinavia Helle Roy Tillgaard, Denmark	L-30
18:00-18:20	The nurses role in colo rectal cancer screening Mireia Díaz Centeno, Spain	L-31
18:20-18:30	Major Sponsor	

SESSION 8: When unforeseen happens ...

17:00-18:30	Room B3	
Chairs	Christine Petersen, The Netherlands Patricia Burga, Italy	
17:00-17:20	How to treat bleeding and perforation – benefits and limitations of traditional and new techniques Hrvoje Ivecovic, Croatia	L-32
17:20-17:40	Foreign body removal – Routine and obscure cases in Endoscopy Alexander Dechêne, Germany	L-33
17:40-18:00	Stentmisplacement during and after the procedure – how to solve the problem Radu Tutuian, Switzerland	L-34
18:00-18:20	“I have a dream”: Nepal after the earthquake– back to normal life Michael Ortmann, Switzerland	L-35
18.20-18.30	Discussion	

ESGENA-Scientific Programme on October 17, 2016

SESSION 9: Controversial discussions in Endoscopy

08:30-10:00	Room F1	
Chairs	Jadranka Brljak, Croatia Enriqueta Hernandez-Soto, Spain	
08:30-08:50	<p>Best Free Paper and Best Poster Awards Jadranka Brljak, Croatia Enriqueta Hernandez-Soto</p> <p>The winner of the best free papers – oral presentation and the best poster presentations - will be announced. Presenting authors are requested to attend this session. PENTAX Medical supports the ESGENA Free Paper and Poster Award</p>	
08:50-09:10	<p>New techniques – easy and quick to perform! Does the endoscopist still need the qualified nurse? Marjon de Pater, The Netherlands</p> <p>Nurses have two roles during endoscopic examinations: Patient Care with monitoring, and technical assistance for the procedures. The patient care role has become complexer over the years, but technical assistance has changed from mainly taking biopsies and occasional polypectomy in the early seventies to complex assistance during therapeutic ERCP. New procedures where the endoscopist handles accessories him/herself potentially changes the role of the assistant again. The question therefore arises – do we still need qualified endoscopy nurses for the technical assistance.</p>	L-36
09:10-09:30	<p>Ethical dilemmas due to shortages of resources in health care Christiane Neumann, United Kingdom</p> <p>Health care systems in most countries struggle to provide optimum care with limited resources (financial and personnel). As most countries have finite budgets to provide this care, and with ever more costly diagnostic and therapeutic interventions being developed, health care providers will have to consider rationing of care, including in endoscopy. Who should be treated – who not? How do we use our resources, e.g. for screening or palliative care etc. What health care decisions are ethical or unethical?</p>	L-37
09:30-09:50	<p>Advanced roles for nurses – a mini-doctor or a maxi nurse? Helen Griffiths, United Kingdom</p> <p>Due to shortages of doctors many former medical tasks are delegated to nurses. This raises many questions: how will staff for these tasks be identified, what training is needed, how is the quality of care assured (Quality Assurance), who takes the medico-legal responsibility for both nursing and delegated medical practice, and where are the boundaries between nursing and medical practice.</p>	L-38
09:50-10:00	<p>Invitation to the next ESGENA Conference 2018 in Vienna Gerlinde Weilguny, Austria</p>
