

Meet. Exchange. Evolve

UEG Week goes virtual

Together with the nurses programme

UEG Week Virtual 2020
October 11-13, 2020

Conference website <https://www.ueg.eu/week/>

Word of Welcome

The situation that we are currently facing as a society is the greatest global health challenge seen in decades. UEG and ESGENA regard the health and safety of our community as a top priority:

Let's meet, exchange and evolve virtually

Experience the first European virtual conference for nurses in Endoscopy and Gastroenterology as part of the UEG Week virtual 2020.

The combination of the ESGENA Nurse Programme and the UEG Week programme offers an exceptional educational experience. Nine virtual auditoriums will offer lectures, real-time discussions, live endoscopy, electronic posters, and industry symposia. ESGENA will have two nurses' specific sessions per day. See enclosed programme

Now more than ever, we need to stand united to ensure that gastroenterology and endoscopy nursing is advancing as a nursing discipline. We are thrilled to offer this new virtual platform as part of the UEG Week, now even more accessible to our global community from every corner of the world.

Hope to meet you at the first virtual UEG Week and ESGENA programme. Stay safe, strong and united !

Marjon de Pater
ESGENA President

Registration & Information:

- **Registration for UEG Week Virtual 2020** <https://ueg.eu/p/36>
- The Registration will remain open until the end of December.
- **For online registration, please register each participant individually!**
