

ESGENA Spring School at ESGE Days 2021

Welcome Message

Dears Colleagues

ESGENA Spring School will be a part of the upcoming ESGE Days 2021 virtual conference that will take place March 25-27, 2021. Join us and experience a great and inspiring community.

Over the course of the COVID-19 pandemic we all have become more aware of how essential communication with colleagues, exchange of information and experiences are for our professional lives. Conferences are a great tool for career networking, learning, and also - for meeting friends. This is also possible virtually, of course with restrictions. The joint format of ESGE Days and the ESGENA Spring School aims at brings all of this together in the best possible way. We want to enhance your knowledge and give you the opportunity to interact with experts and colleagues. Meet each other and talk during ESGE Days and the ESGENA Spring School.

We have a lot in store for the nursing community: live demonstrations, an interesting variety of lectures, team trainings, and specialised symposia.

The combination of ESGE Days and the ESGENA Spring School emphasises the spirit of teamwork in Endoscopy. This is also reflected in the large number of combined sessions for physicians and nurses covering state-of-the-art procedures and new developments linked with specialised patient care.

Share the date with your colleagues. The virtual platform allows you to join us from every corner of the world. Stay safe, strong and united !

See you soon at ESGE Days and the ESGENA Spring School 2021

Marjon de Pater
ESGENA President

Endoscopy is Teamwork

Since 1996 ESGE and ESGENA have developed a close co-operation in organising educational activities and in developing guidelines. In 2021 ESGENA will celebrate their 25th anniversary - with the ESGE Days as the major spring event.

The success of an endoscopy unit is reliant on a well-functioning multidisciplinary team working together towards a common goal of safe and effective patient care. ESGE and ESGENA strongly believe that it is ideal when the endoscopy team learns together.

Endoscopy nurses play an active role during the endoscopy procedures and during the peri-endoscopy patient care. Both require specialised knowledge and skills which include a deep understanding of endoscopic diagnosis and therapy, equipment care and assistance. ESGE Days promote an advanced team approach with many activities in which nurses are involved:

- The ESGE-ESGENA joint session on hygiene and outbreak management covers relevant topics that can be discussed quite controversially
- The ESGE-ESGENA joint session on management of endoscopy units offers helpful information on organisational procedures and service improvements.
- The ESGENA Spring School consists of three sessions which reflect daily practice like sedation, and patient and staff safety. It also highlights various opportunities of advanced roles in GI Endoscopy.
- The live demonstrations focus on endoscopic techniques, also with an eye to the role of the assisting nurse.
- Chat rooms provide a place for delegates to meet informally

ESGE Days and the ESGENA Spring School offer a great variety of options for nurses to expand their knowledge in both endoscopy procedures and specialised patient care in GI Endoscopy. This combination is the great value of ESGE Days and the ESGENA Spring school.

Join us – be an active part of a greater community.

Registration

ESGENA individual members are able to register at a discounted rate; be sure to have your individual ESGENA membership number ready when you complete the online registration.

	Early bird registration Until February 28, 2021	Regular registration From March 1, 2021
ESGENA individual members	50,-€	70,- €
Non-ESGENA nurses	150,-€	190,- €

ESGENA Groups will receive 3 free registrations. Please contact the ESGENA secretariat.

Nurses who are members via their national society only, cannot make use of the reduced registration fee.

Detailed Programme

Friday, March 26, 2021

14:00 – 14:45

Hygiene and outbreak management (ESGENA-ESGE joint session)

Chair: Ulrike Beilenhoff (Germany)

Chair: Jean-François Rey (France)

14:00 – 14:10

Simethicon in GI Endoscopy: can we still use it? Does it support the biofilm formation?

Speaker: Cesare Hassan (Italy)

14:10 – 14:15

Q & A

14:15 – 14:25

Single use endoscopes: Pros and cons?

Speaker: Marco J. Bruno (Netherlands)

14:25 – 14:30

Q & A

14:30 – 14:40

How to manage outbreaks? What did we learn?

Speaker: Judith Kwakman (Netherlands)

14:40 – 14:45

Q & A

16:00 – 16:45

Management (ESGENA-ESGE joint session)

Chair: Oliver Pech (Germany)

Chair: Wendy Waagenes (Denmark)

16:00 – 16:10

Burnout and work satisfaction in Endoscopy

Speaker: Charles Adarwah (Germany)

16:10 – 16:15

Q & A

16:15-16:30

How to design and structure an endoscopy unit. Which mistakes should be avoided?

Speaker: Marjon de Pater-Godhelp (Netherlands)

16:25 – 16:30

Q & A

16:30 – 16:40

How to manage demand and capacity

Speaker: Deborah Johnston, UK

16:40 – 16:45

Q & A

Saturday, March 27, 2021

11:00 – 11:45

ESGENA Spring School: Advanced roles for nurses in endoscopy and gastroenterology

Chair: Marjon de Pater-Godhelp (Netherlands)

Chair: Wendy Waagenes (Denmark)

11:00 – 11:10

„I CARE!“ – The core competence of the endoscopy nurse based on case studies

Speaker: Denise Schäfer (Austria)

11:10 – 11:15

Q & A

11:15 – 11:25

Nurses in manometry and ph-monitoring: An advanced role for nurses in gastroenterology

Speaker: Ms Lien Timmermanns (Belgium)

11:25 – 11:30

Q & A

11:30 – 11:40

Advanced nurse practitioner (ANP) for IBD: Benefits for the health system and the individual patient

Speaker: Aine Keogh (Ireland)

11:40 – 11:45

Q & A

12:00 – 12:45

ESGENA Spring School: Patient and staff safety

Chair: Tatjana Gjersek (Slovenia)

Chair: Cesare Hassan (Italy)

12:00 – 12:10

Sedation in GI endoscopy: Update 2021

Speaker: Andrea Riphaus (Germany)

12:10 – 12:15

Q & A

12:15 – 12:25

Sedation in endoscopy: Titration vs TCI pump

Speaker: Björn Fehrke (Switzerland)

12:25 – 12:30

Q & A

12:30 – 12:40

Titration vs one dose procedural sedation without anesthesiologist. Need for a specific procedural nurse sedation team (PROSA).

Speaker: Ricomaurits Haesaerts (Belgium)

12:40 – 12:45

Q & A

13:00-13:45

ESGENA Lunch Sessions (two parallel sessions)

Chairs : NN

Presentation of ESGENA corporate partner on new trends and developments on

- Hygiene & Infection control
- Endoscopic techniques
- Patient & staff safety

14:00 – 14:45

ESGENA Spring School: Education

Chair: Wendy Waagenes (Denmark)

Chair: Ulrike Beilenhoff (Germany)

14:00 – 14:10

Interdisciplinary skills training in an endoscopy setting through simulation

Speaker: Ulrike Beilenhoff (Germany)

14:10 – 14:15

Q & A

14:15 – 14:25

Centralised endoscope reprocessing – how to organise it?

Speaker: Klaus Wiese (Germany)

14:25 – 14:30

Q & A

14:30 – 14:40

Problem of musculoskeletal disorders in endoscopy nursing

Speaker: Elzbieta Bak (Poland)

14:40 – 14:45

Q & A
